Technology For Tomorrow
Empowering People in Need with Technology Education
A non-profit 501(c)(3) organization

2022 Quarter 1 Newsletter

Welcome Message

Greetings! My name is Emmy Hilliard and I am so grateful that you have found us and are excited to learn more about the critical and compassionate work that drives all of us here at Technology for Tomorrow. We are very proud to have deep roots in our home state of Vermont and want to share all about the efforts we've made this quarter as we continue our work to bridge the digital divide here for our neighbors and friends. This work would not be possible without the combined efforts of our many community partners and friends. We are excited to share examples of these efforts with you.
The Spring season always provides visual reminders of how beautiful and powerful even the smallest of growth can be. We here at Technology for Tomorrow are celebrating our growth and as a new Program Manager, I am happy to be a branch on this tree as we nurture our roots and expand our mission work to do even more for our community.

Thank you for giving me the chance to share our stories with you.

Community Impact

In Quarter 1, 2022, T4T provided technology education and training to 69 Individuals and hosted 23 events.

T4T publishes an Impact Report every year, consolidating our outreach and impact across all quarters. Please see our most recent 2021 Impact Report.

In 2021, we served a total of 785 individuals. 72% were senior adults, and 30% were new Americans.

Program Updates

CENTRAL VERMONT COUNCIL ON AGING (CVCOA) Bi-WEEKLY Technology Education Programs

Technology for Tomorrow is proud to continue our partnership with the Central Vermont Council on Aging. Together we are working to provide a series of classes that lead and support older Vermonters who are in need of technology education. These popular classes have included many topics that range from Instagram 101 to navigating online safety and security.

AGE WELL PARTNERSHIP
We are very happy to be a trusted partner to Age Well. Our work involved configuring devices and offering individual and group support. We also conducted a series of classes on Digital Literacy and the use of Chromebooks for new Nepali Americans. These classes were a combination of in-person and remote sessions through Zoom

New Americans from Nepal

T4T collaborated with Age Well in conducting a series of classes on Digital Literacy and the use of Chromebooks for new Nepali Americans. The classes were a combination of in-person and remote sessions through Zoom.

From Members of our Board of Directors

Hey everyone —another quarter is in the books, and we're so excited to continue expanding our programming this year. From adding new staff members to our team (Welcome, Emmy!) to doubling down on partners that we've been collaborating with for years now, it's been an exciting year, and we continue to make good progress on multiple fronts. The Board recently had our annual strategy meeting. We left with a renewed excitement around our mission and how it's evolved over the pandemic and increasingly more optimism around how we'll adjust our work and partner with folks as things open back up again. As always, we're so grateful for your continued support, and let us know if you ever have any ideas of how we could work together.

Join us in making a difference!

Neel Desai
Board President
