2022 Quarter 3 Newsletter

[Calendar](#) | [Leadership](#) | [Training](#) | [Impact](#) | [Get Involved](#) | [Programs](#) | [Donate](#)

Welcome Message

Greetings!

We hope you find this newsletter full of encouraging news about our community. With Covid playing less of a role in our lives lately, it's been lovely to be back out among friends and learners again.

The importance of digital equity is beginning to be known to many, and we are hopeful that together with many of the organizations noted here, our hard work and efforts will continue to bridge that gap for all in need. Please consider a donation, it is always needed, and anything helps.

*Your community advocate,
Emmy, Program Manager [Text Link](#)*

Community Impact

In Quarter 3, 2022, T4T provided technology education and training to over a hundred individuals through 16 events.

In 2022, so far, we have proudly served 369 individuals. One hundred forty-nine were Older Adults, one hundred twenty-two were New Americans.

T4T publishes an Impact Report annually, consolidating our outreach and impact across all quarters. Please see our most recent [2021 Impact Report](#).

Partner Spotlight & Testimonial

A word from our Partner- Vermont Adult Learning:

"We have contracted Technology for Tomorrow to provide computer classes for both our staff and the participants we

Vermont Adult Learning works for the day when all Vermonters are prosperous and have the life skills and knowledge to achieve success in their careers, family and community. Further, we envision Vermont Adult Learning as a leader in education and training for those 16 years and older, and as a key resource in helping Vermonters to be successful in achieving their goals. Vermont Adult Learning's mission is to create an innovative, inclusive and equitable learning environment that provides personalized opportunities for education and career development for Vermont residents by building relationships, strengthening communities, and fostering life-long learning.

We are very proud to work alongside VAL to build a community that encourages all Vermonters to access tools for a better life. Thank you VAL.

serve via our employment readiness programs. This T4T team is mission driven, organized, versatile and willing to personalize their courses for optimal relevance to the students in front of them. They are flexible with scheduling, adaptable to student needs, extremely resourceful, and friendly- a pure joy to work with. We are already seeing a long-term impact from their instruction on our staff's professional development and effective service delivery. Two thumbs up!"

**David Justice, Associate Director,
Vermont Adult Learning**

Program & Partnership Updates

Digital Literacy Programs for New Vermonters at BDCC

Technology for Tomorrow partnered with [BDCC](#) to ensure New Vermonters from Afghanistan had access to survival digital skill development. Email, maps, and browser basics were among the most popular classes in the series. We are honored to be a part of the community that supports and welcomes our New Vermonters.

Vermont Adult Learning: Train the Trainer Class Series

Technology for Tomorrow and [Vermont Adult](#)

[Learning](#) joined forces to present a series of Train the Trainer classes that covered topics most in need as identified by the learners.

USCRI Vermont

[USCRI](#) has been welcoming newcomers to Vermont since 1980. We were proud to be a part of that welcome this past quarter as we facilitated a Digital Learning Series for Ladies in Burlington.

Digital Skills for Workforce Development at HireAbility

[HireAbility](#) and Technology for Tomorrow celebrated a new partnership this quarter. We headed to St. Albans to educate a passionate cohort of Vermonters eager to upskill their digital training and secure new jobs successfully!

T4T Free Class Return!

Technology for Tomorrow is proud to continue providing free virtual classes. With a range of topics ranging from Gmail basics to Online Shopping. Check our calendar at <https://tech4tomorrow.org/events/>

From Members of our Board of Directors

"In today's world, everyone must interact with and use technology daily. Whether someone needs to check their bank statement, pay a bill, or connect with friends or family, the ability to use and feel comfortable with computers, smartphones, and other devices is more than a luxury; it's a necessity. Since our organization's founding, Technology for Tomorrow has recognized the need to help under-served populations learn, leverage, and feel comfortable with technology. From our senior community members who look to things like Zoom, Facebook, texts, and email to stay connected with their families to New Americans and returning felons who need technology to reach the critical services they need to grow as members of society by finding jobs, housing, and other services.

At Technology for Tomorrow, we realize that knowledge is access. And more importantly, access is equity. In today's world, without technology and, more importantly, how to use that technology, we risk leaving

people behind. Technology for Tomorrow strives to bring knowledge, access, and equity to those underserved populations we work with daily.

The needs of today are more significant than ever. And so is our ability to address them. Technology for Tomorrow is stronger today than we have ever been, allowing us to continue our mission. Thank you for being so supportive. "
